ESMINT News & Updates

Dear ESMINT Community,

As we approach the end of the summer, the ESMINT Congress marks a fresh start - a moment to refocus, reconnect, and re-energize as a community.

This month's update highlights what awaits in Marseille: an outstanding scientific programme, our annual General Assembly, and new interactive sessions like Meet the Oracle, alongside the continued evolution of our education, research, networking, and outreach activities.

You are invited to explore, engage, and join us in shaping the future of neurointervention.

Society

General Assembly

The agenda for the ESMINT General Assembly is now available, and voting on the proposed Constitution Change has started.

Full Members in good standing are warmly encouraged **to cast their vote**. You should have received an email - if not, please let us know at office@esmint.eu.

Congress

Meet the Oracle

Curious about the latest insights - and maybe some wisdom from a galaxy far, far away? Join our new **'Meet the Oracle'** sessions during the Congress coffee breaks for open exchanges with leading experts, each paired with a Star Wars character. No registration needed - first come, first served!

[Explore more](#)

ESMINT TV Studio

Throughout the Congress, we will run live interviews with speakers in the **ESMINT TV Studio**, located in the Exhibition Area - just drop by to watch. All interviews will be recorded and made available online shortly after, so you can catch up or rewatch anytime.

Education

Autumn Webinars

After the ESMINT Congress, our exciting **Online Learning** webinar series continues. Covering a wide range of topics and led by renowned experts, these sessions are a great way to stay engaged and up to date.

Research

Clinical Trials Spotlight

Don't miss the **'Trials and Work in Progress'** session at the ESMINT Congress 2025. It features ESMINT-endorsed trials, insights from the SHERPA project, and our white paper on clinical trials for the evaluation of medical devices (MD) used in the endovascular treatment of ischemic stroke.

Outreach

JNIS News

We thank Felipe Albuquerque for his leadership as Editor-in-Chief of JNIS and warmly welcome Michael Chen as his successor.

In addition, applications are now open for **new Associate Editors** - a unique chance to shape the journal's future.
